---

Creating/Enhancing  
a "Data-informed  
Strategies" Culture

---

---

---

---

---

---

---

---

Noel-Levitz phases of  
strategic enrollment planning

1. Preparation
2. Key Performance Indicators (KPIs) identification
- 3. Situation analysis and assessment**
4. Strategy development
5. Action and support plan development (potential investments)
6. Prioritization of strategies and actions based on readiness and attractive ROIs
7. Quantifiable goal and ROI identification
8. Plan evaluation and modification

# Data-informed Situation Analysis

---

---

---

---

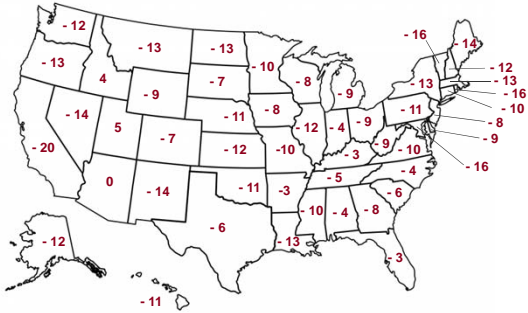

---

---

---

---

---

---

**Strategic Enrollment Planning involves:**

- **Product** (academic, co-curricular, services, support)
- **Place** (on-site, off-site, online, hybrid)
- **Price and Revenue** (tuition, fees, discounts, incentives)
- **Promotion** (marketing, recruitment, Web presence)
- **Purpose and Identity** (mission, distinctiveness, brand)
- **Process** (data-informed, integrated planning)

---

---

---

---

---

---

---

---

---

---

**Evaluating the Economics of Programs Strategic Response**

Enrollment as % of Capacity	<b>Manage</b>	<b>Sustain or Build</b>
	<b>Reduce or Eliminate</b>	<b>Grow</b>
Net Operating Income Per Student		

---

---

---

---

---

---

---

---

---

---

# Data-informed Situation Analysis

Narrowing your Data Analysis

---

---

---

---

---

---

---

---

What data will you need to make accurate projections?

- Historical trend data
- Operations research
- Cost-benefit analyses
- Market research
- Environmental data from secondary sources
- Student aid response data
- Institutional self-assessments
- Predictive modeling

---

---

---

---

---

---

---

---

Historical Trend Data

Funnel volume and conversions for key populations

- Total
- First-year, transfer, and graduate
- By academic program
- In-state and out-of-state
- Traditional and adult

---

---

---

---

---

---

---

---

# Data-informed Situation Analysis

## Further Variables for Trend Analysis

**Geography**

- In-state versus out-of-state
- County in-state
- Counselor territory

**Demographics**

- Gender
- Ethnicity

---

---

---

---

---

---

---

---

## Cost-benefit Analyses

What do our major recruitment activities cost us per resulting enrolled student?

- Travel-related
  - College fairs
  - Open houses
  - High school visits
  - Employer visits
- Web-based initiatives
- Direct-mail campaigns
- Advertising

---

---

---

---

---

---

---

---

## Cost-benefit Study of Travel Expenses

Program	Students		
	Seen	Applicants	Enrolled
College Fairs	2,250	122	38
High School Visits	971	211	85
Off-Campus Receptions	203	117	47
<b>Totals</b>	<b>3,424</b>	<b>450</b>	<b>170</b>
<b>Average Cost*</b>	<b>\$9.03</b>	<b>\$68.74</b>	<b>\$181.96</b>

\* Based upon \$30,933 in travel expenditures

---

---

---

---

---

---

---

---

## Environmental Data from Secondary Sources

- Understand your market and the environment in which you operate
- High school population
  - Current high school seniors and one- to five-year projections
  - Migration patterns
  - Major of interest
  - Average test scores
  - Diversity
  - Socioeconomic profile
- Educational attainment of adult population
- Job/industry trends

---

---

---

---

---

---

---

---

### SSI results play a significant role in product strategy development

---

---

---

---

---

---

---

---

### Price elasticity research plays a significant role in SEP pricing strategies

Price elasticity research is particularly valuable when a non-incremental change in price is contemplated

---

---

---

---

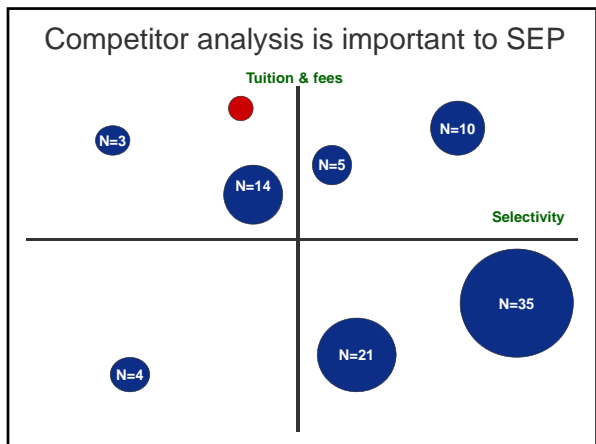

---

---

---

---

# Data-informed Situation Analysis

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

### Situation Analysis - Strength

**Strengths**

- The university offers degree programs in twelve of the top twenty fastest growing occupations in the state of \_\_\_\_\_, showing a total of XX,XXX new jobs by 2015.
- The university offers degree programs in fifteen of the top twenty occupations with the most openings in the state of \_\_\_\_\_, showing a total of X,XXX jobs by 2014.
- The university offers degree programs in fifteen of the top twenty occupations with the largest employment opportunities in the state of \_\_\_\_\_, showing a total of XXX.XXX jobs by 2015.
- According to Career One Stop, [www.careerinfonet.org](http://www.careerinfonet.org), there are no occupations requiring a bachelor's degree or higher that are forecasted to have declining employment in the state of \_\_\_\_\_ by 2015.

---

---

---

---

---

---

---

---

# Data-informed Situation Analysis

## Situation Analysis - Weakness

### Weaknesses

- The workforce need more people trained with certificates and associate degrees; our institution only provides XX associate degrees
- Of the \_\_\_\_\_ lowest growth jobs, the university provides majors for all of these jobs.
- Employer surveys report a high need for technology-based skills training; currently the university only requires XX majors to complete those skill-based courses.

---

---

---

---

---

---

---

---

## Situation Analysis - Opportunity

- The university should take this opportunity to investigate more thoroughly the correlation between our degree programs and the future job market in the state of \_\_\_\_\_.
- Although registered nurses are not required to hold a bachelor's degree, our source shows a XX% growth rate for jobs in this field.
- Positions in information technology and networking account for eight of the top twenty fastest growing occupations in the state, with approximately X,XXX new positions forecasted.
- Positions in education account for six of the top twenty occupations with the most openings in the state, with approximately X,XXX openings.
- Positions in education account for six of the top twenty occupations with the largest employment in the state, with approximately XX,XXX positions.
- Positions in medical technology are projected to grow at XX% for a total of XXX new positions. There is potential to recruit additional students for this program to reduce the per-credit-hour cost of this program while supplying the demand.

---

---

---

---

---

---

---

---

## Situation Analysis - Threat

### Threats

- There have been no reported growth projections for future employment in the area of \_\_\_\_\_(one of institution's majors).
- There have been no reported growth projections for future employment in the area of \_\_\_\_\_(one of institution's majors).
- Six for-profit organizations have opened within a fifty-mile radius offering majors for all employment areas demonstrating the largest growth by 2015.
- Faculty credentialed in \_\_\_\_\_(major) have a salary average XX% higher than entering salary expectations.

---

---

---

---

---

---

---

# Data-informed Situation Analysis

Exercise:  
Data Informed SWOT Analysis

---

---

---

---

---

---

---

---

Blend historical enrollment into forecasting enrollment

---

---

---

---

---

---

---

---

Desired Enrollment State

- Size/enrollment level
- Geography (in-state/out-of-state, territories)
- Academic profile
- Racial/ethnic diversity
- Academic majors/programs
- Co-curricular interests
- Financial profile
- Residents vs. commuters
- Traditional vs. nontraditional

---

---

---

---

---

---

---

---
