

INTERNAL/DEPARTMENTAL POLICY AND PROCEDURE

TITLE: Lead Exposure Prevention Program

EFFECTIVE DATE: May 23, 2024

CANCELLATION: None

DIVISION: BUSINESS AND ADMINISTRATIVE AFFAIRS (BAA)

CATEGORY: Risk Management/Safety/Compliance (Y)

RESPONSIBLE DEPARTMENT: Safety and Risk Management Office

PROCEDURES & SPECIFIC INFORMATION

1. Purpose

To promulgate the College's procedures for preventing exposure and mitigating potentially harmful lead substances on Delgado Community College campuses and sites.

2. Scope and Applicability

This policy applies to students, employees, visitors, and persons using College facilities who may work or enter facilities with identified or unidentified lead-containing building materials or coatings. *This policy does not provide instruction on the safe handling, destruction, removal, demolition, or alteration of lead-containing building materials or coatings.*

3. Responsibilities

In accordance with the College's [Comprehensive Safety Program policy](#), Delgado is committed to providing a safe environment on all campuses and sites, and this policy is intended to mitigate risk of contact with potentially harmful substances. The Office of Facilities and Planning is responsible for managing environmental issues and has designated the College's Safety and Risk Manager responsibility to these oversee standing operating procedures. The responsibilities are outlined as follows:

A. The *Safety and Risk Manager*:

1. Oversees implementation of occupational and environmental rules and procedures relating to potentially harmful substances as part of a continuing prevention effort according to the College's [Work Environment Safety Program](#) policy.
2. Serves as the point of contact to ensure compliance with Louisiana Office of Risk Management, Occupational Safety and Health Administration (OSHA), the Environmental Protection Agency (EPA), and the Louisiana Department of Environmental Quality (DEQ).

3. Provides harmful substance awareness information and training upon request.

B. *The Office of Facilities and Planning:*

1. Maintains the College's Harmful Substance Operation and Maintenance Plan, including periodic surveillance.
2. Provides for a crew to conduct small scale removal as needed.
3. Ensures that harmful substance removal workers, inspectors, and planners are trained and certified.
4. Maintains all harmful substance and indoor air quality inspection documentation.

C. *Employees and Building Occupants:*

1. Are responsible for fostering an awareness of potentially harmful substances hazards.
2. Report concerns of harmful substances immediately to their supervisors and the Safety and Risk Management Officer.
3. Do not undertake a job or activity that may involve direct contact with a known harmful substance, such as asbestos.
4. Have a right to view inspection documentation for their work area or location, which is available in the Office of Facilities and Planning.

4. **Lead-Containing Paint/Materials**

- A. Delgado Community College has not used lead-based paint on any campus and site since approximately 1970, and as such it is rare to find lead-based paint in any buildings.
- B. Inspections for lead in paint and materials (such as ceramic tiles) are routinely performed through the Office of Facilities and Planning.
- C. If lead-containing paint/materials are suspected, the employee or building occupant reports the matter to the Safety and Risk Manager. Employees and occupants have the right to view lead inspection documentation for their work area or location, which is available in the Office of Facilities and Planning.
