

## Program Migration Report

This report is a snapshot in time that reflects program activity for one semester. Headcount is the unduplicated enrollment for the corresponding semester. Accepted indicates those degree-seeking students who have been accepted into a program. For all programs, non-degree seekers are considered not accepted. New Admit is a First-time Freshman. Graduating in December is the duplicative number of degrees earned by students who were enrolled in that semester. If a student graduated in December, but was not enrolled in the Fall, that student is not counted.

Transferring in the Spring includes those students who transferred the following spring semester. In Good Standing includes the number of students enrolled in the Fall semester and whose GPA at the end of the semester is 2.0 or greater. Retained in Spring includes those students who returned the following spring.

For the Spring 2006 row May 2006 data is used for the Graduating December column. Fall 2006 data is used for Transferring Spring and Retained in Spring columns.
