IV. Curriculum Operations Report – Tim Stamm

V. Board of Regents for Louisiana Higher Education Policy Updates

a) Academic Affairs Policy 2.15: Definitions of Undergraduate/Graduate Certificates and Undergraduate Degrees

The standard number of credits required for the Associate Degree will be 60. Given that the Associate of Applied Science (A.A.S.) degree is designed to prepare students to directly enter careers upon graduation, A.A.S. programs often require additional technical training; consequently, A.A.S. degree programs may range from 60-72 hours. Exceptions to the standard number of credits must be approved according to the respective System's policy. The Board of Regents will periodically review both the number of credit hours required and approved exceptions to the 60-hour standard. Update: LCTCS Action: All Associate Degrees (A.A., A.S., A.A.S., and A) will meet the 60 hour standard; exceptions must be approved, and must be consistent across LCTCS colleges.
