- j) **Business & Technology/BUMG**  
**Concept Proposal of a New Instructional Program. Certificate of Technical Studies in Retail Management.** The purpose of the proposed program is to prepare individuals working in the retail industry, and related fields, for the industry training needs in supervision and management, marketing, financial

management, and business planning. The curriculum encompasses several business essentials and emphasizes the skill sets needed for effective management and communication in the work environment. The proposed program's learning outcomes align with nationally recognized curriculum endorsed by the National Retail Certificate Program. The College is currently working with regional partners who support the development of this instructional program. Delgado Community College proposes a 9-course, 27-credit hour Certificate of Technical Studies program in "Retail Management." The proposed program will be embedded, 100 percent, in the existing A.A.S. in Business and Management, with a concentration in Retail Management. [STAR 4]
