Saturday class examinations will be Saturday, December 4 at the regular meeting time except for Saturday Math courses for which campus-wide exams are given Wednesday, December 1. Students of hybrid and atypical courses, such as mini-session courses, will be informed of the final examination date for those courses by the instructor. All final exams, other than lab courses, must be given during the times indicated on this schedule. All students must arrive on time to the final exam.

*Online courses may have in-person final exams. Students should communicate with their online course instructors for details (date, place, and time). Please note that the traditional and/or hybrid course exam schedule above takes precedence over in-person online exams. Again, students should communicate with their online instructors for further information.
