

**COMPLETION PROCEDURES FOR CERTIFICATES
EMBEDDED WITHIN ASSOCIATE DEGREE PROGRAMS**

Upon a student's completion of the requirements for a Certificate that is embedded within an Associate Degree program, Delgado Community College awards the appropriate credential and documents the award on the student's transcript. However, to be eligible for the embedded Certificate, students must complete all requirements for the Certificate prior to the semester/session in which all requirements for the Associate Degree are completed. Each recipient is notified of his or her respective credential awarded.
