

MEMORANDUM OF UNDERSTANDING

between the

Southern University at New Orleans and Delgado Community College

This agreement is effective as of February 1, 2023, between Southern University at New Orleans (SUNO), a Louisiana public institution of higher education, whose address is 6400 Press Drive, New Orleans, LA 70126, and Delgado Community College (DCC), a Louisiana public institution of higher education, whose address is 615 City Park Ave, New Orleans, LA 70119.

The purpose of this agreement is to ensure acceptance of prior coursework and to facilitate the transfer of DCC students who have completed the following:

1. An Associate Degree Awarded by DCC with a minimum cumulative grade point average (GPA) of 2.25 or higher, that meets any one of the following requirements:
 - a. The degrees are an Associate of Arts, Associate of Applied Science, Associate of General Studies, or Associate of Science. These degrees provide a clear pathway of general education and transfer courses, and they represent strong preparation for upper-division coursework in a range of majors.
 - b. The degree includes the completion and certification of General Education Curriculum as defined by DCC and the Louisiana Transfer Associate Degree and used by DCC and 4-year institutions of higher education to prepare students to transfer to participating Louisiana institutions of higher education.

In exchange for meeting the above conditions, DCC transfer students will be afforded the following opportunities:

I. Guaranteed Admission

DCC transfer students awarded an Associate Degree as defined above will receive guaranteed admission to SUNO at the classification of junior. Students will be made aware that additional prerequisites and graduation requirements may be required by SUNO for certain majors. Only students who are in good standing at their last transfer institution will be considered.

II. Transferability of Credit

SUNO will accept a minimum of 60-semester credits for Delgado Community College (DCC) transfer students awarded an Associate Degree. Students must earn a grade of “C” (2.0 on a 4.0 scale) or higher in each course to qualify.

SUNO will accept DCC courses listed in appendix A which are deemed transferable by the Louisiana Board of Regents toward general education, major, and/or elective credit. SUNO will work with DCC to identify the transferability of credits earned through CLEP, DANTES, IB, AP, Credit by Exam, Prior Learning Credit, and ACE. SUNO will identify the transferability of credits earned through CLEP, DANTES, IB, AP, Credit by Exam, Prior Learning Credit, and ACE by referring to the Louisiana Board of Regents’ Master Course Articulation Matrix. In addition, according to Board of Regents Policy AA-2.23, Prior Learning Assessment, Credit awarded for courses identified on the Master Course Articulation Matrix via PLA – both standardized and non-standardized – must be accepted by the receiving institution according to course equivalencies on the Matrix. Institutions may also accept credit for courses not on the Matrix. SUNO reserves the right to award credit for major preparation based on University policy.

III. General Education Requirements

SUNO agrees to accept the completion of the Louisiana Transfer Associate Degree in lieu of its own lower division general education requirements. For DCC transfer students awarded an Associate Degree, no more than nine additional credits will be required to fulfill University general education requirements.

IV. Catalog Rights

If SUNO modifies the degree requirements or prerequisites, the student will be accommodated based on the date they began their coursework at DCC with equivalent coursework and not penalized in total units required for their Bachelor's degree.

V. Student Advising & Support

SUNO will provide pre-transfer advising to DCC students through online, onsite, and/or telephone advising. SUNO's Office of Academic Affairs will maintain MOU agreements with DCC. In addition, faculty advising by discipline will be available to future transfer students prior to and once enrolled at SUNO. Informational materials for potential transfer students will be made available to DCC to facilitate the transfer process.

SUNO will seek to offer orientations to DCC prospective and transfer students to inform and connect them with student support services that promote degree completion (i.e., retention programs, tutoring, supplemental instruction, mentoring, student clubs, and more).

SUNO will participate in a minimum of one annual outreach activity to educate and inform DCC students and faculty about SUNO.

Activities may include the following:

- Participation in DCC transfer conferences, transfer fairs, professional conferences and panels to educate administrators, counselors, faculty, staff, and students about SUNO admissions requirements, costs, etc.
- Provision of onsite admissions to eligible DCC students at transfer events and webinars.

VI. Housing

SUNO will provide priority consideration for campus housing during the first year if the housing fees are paid by the housing application deadline.

VII. Tuition & Fees

DCC transfer students awarded an Associate Degree as defined in this Agreement will receive an out-of-state waiver of tuition and fees throughout the duration of their continuous enrollment at SUNO for a period not to exceed three (3) years.

VIII. Scholarship Opportunities

SUNO will seek to develop transfer scholarships for incoming students who have a cumulative 3.2 or higher-grade point average and meet all other criteria of SUNO, based on available funding.

IX. Data

Under this agreement, SUNO will conduct an analysis of the DCC transfer students to determine their

progress and success. The analysis should include descriptions that profile the population and process measures, such as course completion and term persistence, as well as course of study. The success of transfer students is measured by achieved outcomes and includes degrees conferred, time to completion, and continuation towards an advanced education. No later than 90 days after the conclusion of an academic year, SUNO shall provide DCC with a written summary of the results of the analysis.

X. Marketing & Communication

DCC will work with SUNO to develop a public relations plan to communicate and publicize support of this agreement. Dissemination may include print media, news releases, email, webinars, and social media distribution channels. Upon execution of this agreement, SUNO agrees to provide DCC with a limited, non-exclusive license to use marks and/or logos solely for the limited purpose expressly identified under this Agreement, subject to the approval of SUNO.

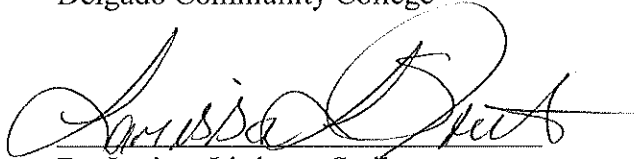

XI. Terms of Agreement & Severability

The term of this agreement shall be ongoing commencing on the date first set forth above, provided that either party may terminate this agreement upon written notice, with the termination effective at the start of the following academic year. If the agreement is terminated, all students identified on or before the date of termination will retain their transfer guarantee and all other terms stated in the agreement.

This agreement contains the entire agreement between the parties pertaining to the transaction and may not be amended, unless in writing and signed by both parties.
