COMMUNITY COLLEGE

Fall 2003

14th Class Day Final Report

Published on June 22, 2004
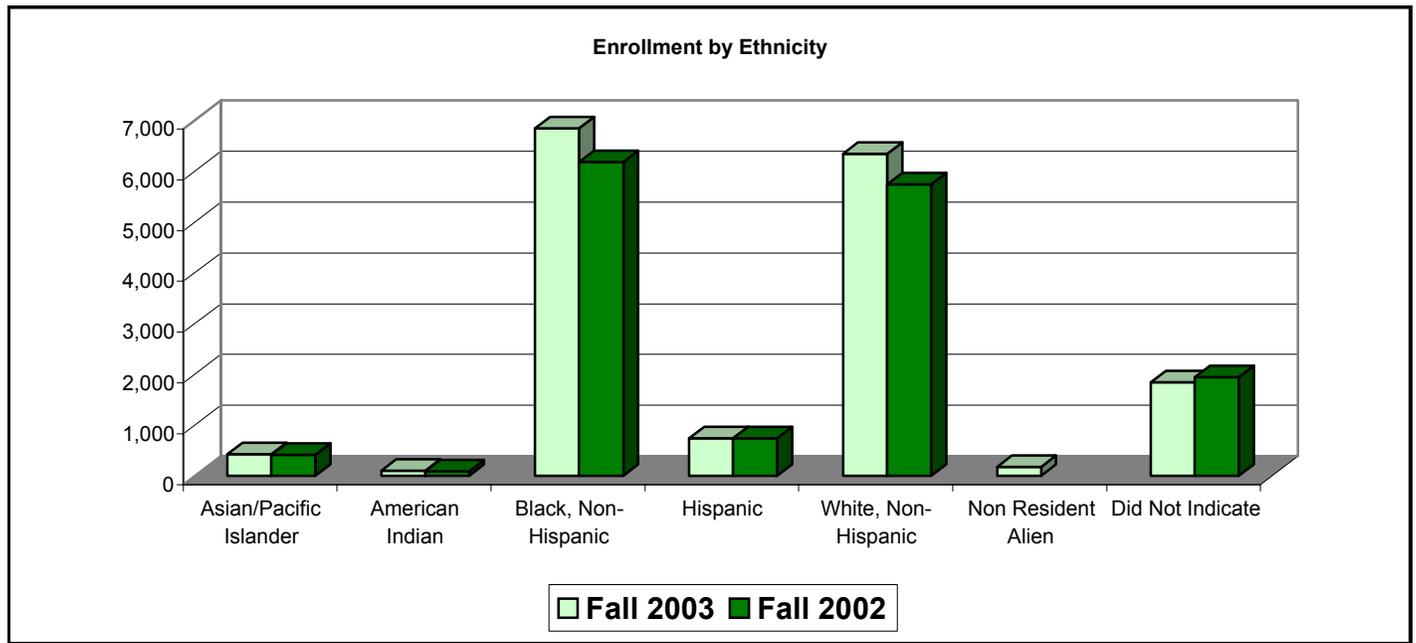

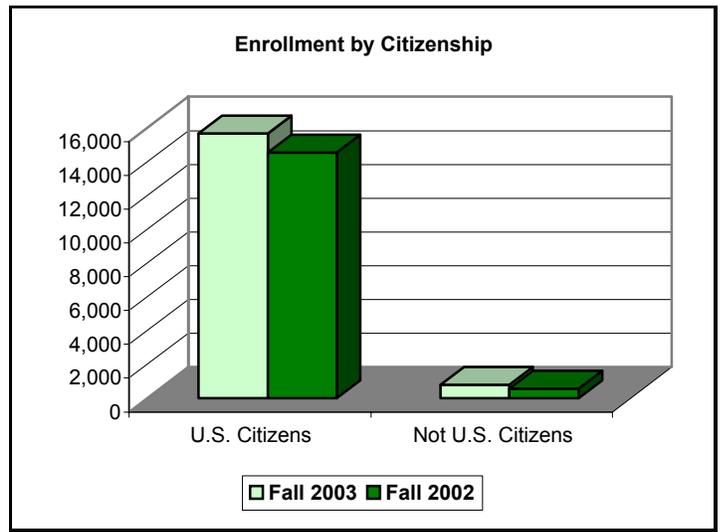

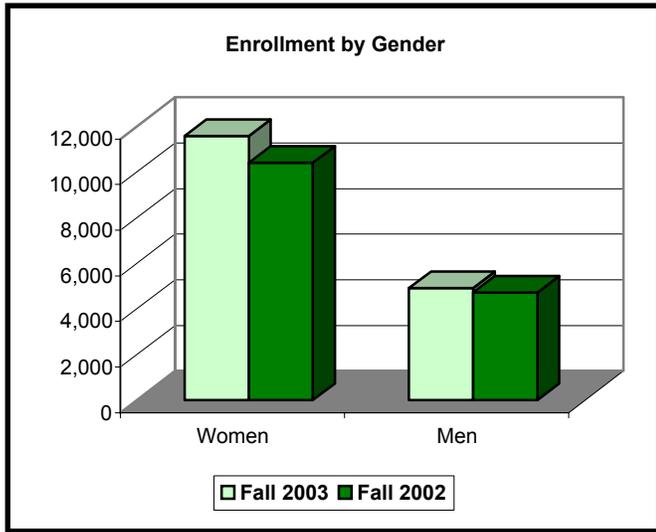

By The Office of Institutional Research

Summary

- Enrollment increased by 9% reaching our highest enrollment since Fall of 1992 when our enrollment was 15,280.

- Female students increased 11%, male students increased by only 4% widening the gender gap by 1% over last year.

- Black students increased by 11% and now make up 42% of our student population.

- Charity School of Nursing had the largest percentage increase, 25%, while City Park Campus had the smallest increase of 4%.

- Science & Math Division on the City Park Campus increased by 30%. Arts & Science on the West Bank increased by 28%.

In Fall 2003, Board of Regents changed their reporting requirements. New elements were added and the reporting date was changed from the 14th day to the end of the semester in order to include grades. At the same time we were required to change from 1990 CIP codes to 2000 CIP codes. Most of the elements on the report will be frozen as of the 14th class day, however, because of the many problems associated with converting to a new process, the elements were not frozen and therefore we are re-issuing this report to reflect the date submitted to the Board of Regents.

*Basic Education contains non-degree seeking students. Fall 2002 contained some students that should have been moved.
This problem was corrected in Fall 2003 resulting in a large decrease in Basic Education enrollment.

**Northshore enrollments were previously reported as a part of Community & Workforce Development in Fall 2002.
